E-mail

**Please check the area the research work refers to:**

- € Applied Mathematics,
- € Applied Physics,
- € Electrical Engineering, Electronics control system,
- € Data mining, Data management,
- € Simulation and Modeling, Multi-physics modeling, Algorithms,
- € Sensing technology,
- € Analytical chemistry,
- € Biomedicine, Toxicology
- € Material Science
- € Aerosol Science
- € Internet of Things (IoT).

1. **Problem description**
   *Please describe the research problem, determine the complexity of the problem solved through the work.*

2. **Impact and application**
   *Please describe how the research work impacted specific area, industry. What is its application?*

3. **Solution**
   *Please describe the key findings and solution. Was the scientific problem investigated through experiments, from theory point of view or both?*

4. **Publications/IP**
   *Please present the list of international publications related to the research work and any IP issued.*

5. **Citations.**
   *Please present how many citation and references to your research work/paper there exist?*
